Life Is On Schneider Electric

IT Advisor Foundation for Users

EcoStruxure IT Education Services, provides you with the latest training and knowledge, enabling you to maximize the use and benefits of your EcoStruxure IT software solution. The eLearning on-line training platform and self-paced courses allow you the flexibility to complete the training when and where you need, with an individual and dedicated training environment. Take advantage of a combination of written and illustrated, content, video demos and a range of useful information links to enhance your training experience. Maximizing your understanding through experiential learning.

Hands-on

Gain knowledge as you learn in your own dedicated environment.

Who should take this course:

This course is designed for software professionals who are new to IT Advisor Colocation operations or experienced EcoStruxure IT Software users or administrators requiring a refresh in their knowledge of IT Advisor technology. The self-paced course module takes you through IT Advisor Colocation management, including provisioning of cages, tenant management and how to track tenant usage and asset provisioning.

Experiential Learning

Gain the skills you need by using the actual software.

In this course you will:

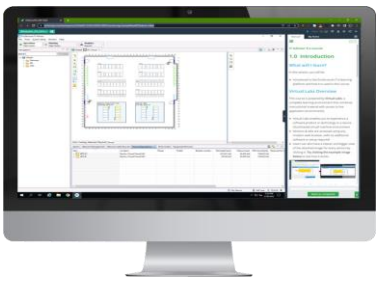

- Gain an understanding of data center Colocation management principles.
- Learn how to create and manage Cages for Colocation tenants.
- Learn how to assign cages, racks, and devices toa tenant account.
- Learn how to track tenant inventory and infrastructure usage.
- Learn how to trace consumption of space and power and run tenant simulations.
- Learn how to create Colocation Reports to effectively manage tenants.
- Learn how to accurately assign and manage tenant costs.
- Learn how to setup tenants to view their own assets with the Tenant Web client.
- Learn how to manage the available data center space and allocate future cages for sale.

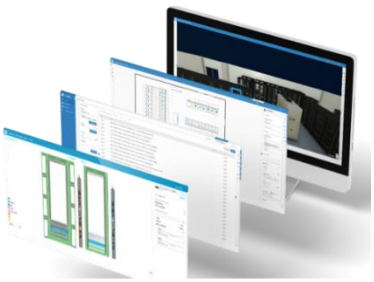

Increase Productivity Quickly

Easily update your skills or bring new people up-to-speed faster.
