HPE OEM program and MWI mobile wireless communication technologies

"When we share the HPE name with our customers, no one questions us. These companies normally do a lot of testing and evaluation on their hardware, but with HPE, they don't have to."

– Malcolm Ong, CEO, Metropolitan Wireless International

MWI METROPOLITAN Metropolitan Wireless International

MWI is an information technology company that delivers seamlessly integrated wireless communication solutions to enhance the safety and performance of its customers' operations.

MWI is based in Singapore, with an offshore development center in Bangalore. MWI's core team has a stellar track record in designing and deploying successful and highly reliable solutions. The company is committed to give every customer the best service based on shared values and trust.

Hewlett Packard Enterprise

Solution: OEM

Industry: Telecommunications

Country: Singapore

Objectives

- Provide highly available, reliable mission-critical wireless communication technology
- Enable secure communications for large-scale, critical projects
- Offer servers preloaded with communication software as an all-in-one, ready-to-use system

Requirements

- Partner with a highly reputable, trusted, globally established hardware provider
- Provide full-service, localized support for end users
- Extend time and money savings to end users by eliminating the need for customers to configure their own wireless communication networks

Solution

- HPE ProLiant DL360 Server
- HPE ProLiant DL380 Server

MWI METROPOLITAN Metropolitan Wireless International

HPE solution benefits

- Provides global support network through HPE Pointnext Services
- Builds trust with a reputation for quality and reliability, needed for mission-critical communications
- Enables scalability, making a stand-alone software product into a complete system
