COOLING MADE SIMPLE

Perfect for all kinds of cooling solutions. The FLUX AIO cooler delivers reliable cooling performance with a stylish infinity mirror design. Effective cooling meets attractive aesthetics just in one simple package.

einarex.com
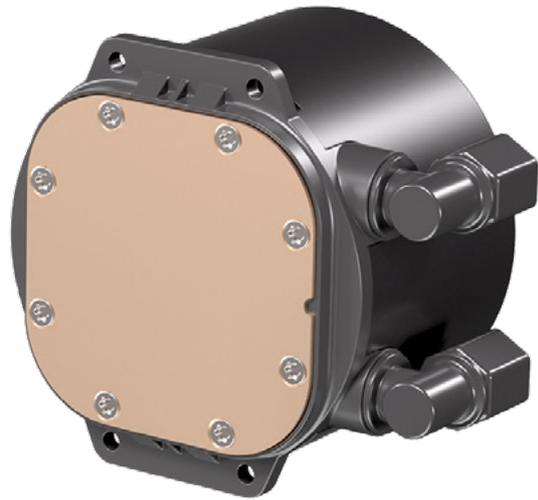

Reliable Performance

Pure copper cold plate with reliable pump. The 2800 RPM pump ensures stable heat transfer, while the infinity mirror effect lights up your style.

High Performance FDB Fan

PWM-controlled EX-12A fans with Fluid-Dynamic Bearing deliver up to 74.22 CFM airflow and 4.42mmH2O static pressure, delivering the best thermal management in a quiet operation.

Technical Specifications

Intel Socket	LGA 1851 / 1700 / 1200 / 115x / 20xx
AMD Socket	AM5 / AM4

Radiator

Dimensions	154 x 120 x 27mm
Material	Aluminum
Tube length	380±10mm (120)

Water block

Dimensions	Φ67 x 39mm
Coldplate material	Copper
Pump speed	2800 RPM

Fans

Number of fans	x1
Dimensions	120mm x 120mm x 25mm
Fan bearing	Fluid-Dynamic Bearing (FDB)
Speed	800-2600±10% RPM
Airflow	74.22 CFM
Static pressure	4.42mmH$_2$O
Noise	38.2dBA MAX
Fan control	PWM
Life	40.000 hours
