Important Note:

- [1] Tested by an external laboratory for IEC 60529 IP67 certification, the product can be immersed in water at a depth of 1 meter for 30 minutes, effectively preventing dust from entering when not in operation. If the product gets wet, please ensure it is completely dried in a shaded area before reconnecting to any device.
- [2] 1GB=1,000,000,000 Bytes. In OS system, it would be displayed as 1,000,000,000 Bytes/1024/1024/1024 = 0.93GB
- [3] Transmission speed will vary according to different hardware/software conditions, therefore the data can only use for basic reference.
- [4] As internally tested by TEAMGROUP, the product maintains normal operation and can be used under normal circumstances after being dropped onto carpeted ground from up to 2 meters. This does not guarantee the product, its exterior, and its stored data will not experience any damage when dropped in all environments. Please do not drop or damage the product.
