NOTICE:
[1] 1GB = 1,000,000,000 bytes, 1TB = 1,000,000,000,000 bytes. Some capacity is used for formatting and system functions, so the actual available capacity may be lower than the labeled capacity. Displayed capacity may also vary across different operating systems due to differences in calculation methods.
[2] 1MB/s = 1,000,000 bytes per second. Performance results are based on internal testing and may vary depending on hardware conditions, host device, usage conditions, flash drive capacity, and other factors. The advertised speeds are for reference only.
※ Please confirm that your hardware ports support the specifications of the flash drive before purchase.
※ All performance test data is based on TEAMGROUP's internal laboratory results. Performance may vary depending on the CPU platform used (AMD/Intel) and other environmental factors.
※ The company reserves the right to modify all styles and specifications without prior notice.
※ Refer to the latest version on the official website. In case of discrepancies, the official website prevails.
