Product datasheet

Specifications

Subscription, Ecostruxure IT Expert, 5 years, 500 nodes, Digital, Remote monitoring and management of Data Centers.

SWITE5YR500N-DIGI

Overview

Presentation	EcoStruxure IT Expert monitors and protects your critical equipment, providing 24/7 visibility through live data, smart alarming, and data-driven insights on the health of your connected assets directly to your smartphone. EcoStruxure IT Expert synthesizes performance and alarming data into proactive recommendations, and enables secure, wherever-you-go visibility and control.

Main

Range of product	EcoStruxure IT Expert
Product or component type	Subscription
Subscription period	5 years
Software type	DCIM software Management software
Number of nodes	500
Format	Digital key Cloud hosted
Range compatibility	NMC card Vendor neutral
Hosting option	Cloud
Software function	DCIM monitoring and management Alarming Dashboard overview Inventory NMC firmware update Data driven insights Mass configuration Reporting Remote monitoring Management
User language	English French German Spanish Italian Japanese Korean Portuguese Russian Chinese
Subscription type	Paid

Complementary

System requirements	Access to cloud-based SaaS Windows server Linux server
Web services	Customizable email notifications Alarm notification by e-mail

Disclaimer: This documentation is not intended as a substitute for and is not to be used for determining suitability or reliability of these products for specific user applications

User interface	Access to the list of connected products Alarm management Alarms sending by mobile app Alarm management acknowledgment of alarms Alarm notification by e-mail Energy monitoring Security Smartphone app Upgrade drive firmware Web user interface
Service benefits	24/7 Support Additional energy savings thanks to event management Available from any user and on any mobile terminal Avoid unnecessary travel to your facilities Connect equipment to SE cloud Connect your systems or assets Cost effective solution for energy management Feature enhancements Firmware and software update Keep key assets up and running Maintenance costs optimisation Manage maintenance of all sites from any location Maximize your efficiency New features Peace of mind Preventive maintenance on assets Quick and easy to set up
Communication service	API Email Mobile app
Function available	Easily configurable Software configurable User privilege configuration
Service short description	Remote maintenance Self-monitoring View energy and monitor assets View status and alarms Web portal: view asset status and condition Web portal: view your energy consumption Web portal: view your energy consumption and costs Web portal: view your power measurements
Software designation	EcoStruxure IT Expert Software

Environmental Data

Schneider Electric aims to achieve Net Zero status by 2050 through supply chain partnerships, lower impact materials, and circularity via our ongoing “Use Better, Use Longer, Use Again” campaign to extend product lifetimes and recyclability.
