Future-proofing with more power and less energy

phoenixNAP GLOBAL IT SERVICES

“The combination of cutting-edge hardware, flawless and frictionless automation, advanced remote management, and peerless technical support empowers phoenixNAP to do more in less time, broaden our reach, and offer our customers solutions that work. We were the first customer in the world to order HPE ProLiant DL320 Gen12 SP servers, and the benefits of the upgrade were immediate.”

– **Martin Wielomski**, VP of Products at phoenixNAP

Global IT service provider phoenixNAP found success by evolving alongside their customers. Empowering clients with comprehensive, modern solutions increasingly meant providing more power while consuming less energy. With a first-in-the-world deployment of HPE ProLiant DL320 Gen12 SP servers, phoenixNAP can enhance automation, increase energy efficiency, and meet customers’ growing data processing needs, allowing them to expand their business.
