- GDS® Compatible™, complete your solution with a GDS® Tough-Dock™, ergonomic accessories, and more
- Backed by a 3-year warranty

PRODUCT INFORMATION**OVERVIEW**

The IntelliSkin® Next Gen for Samsung Tab A11 (RAM-GDS-SKIN-SAM95-NG-1) is an insert molded design that combines a hard plastic shell with soft, shock-absorbing rubber and an integrated GDS® connector that upgrades the device's USB-C port to flat, ruggedized pogo pads. These pogo pads are easy to clean and prevent damage from constant plugging and unplugging in environments where the combination of debris and daily, repetitive docking is unavoidable. Built with every scenario in mind, the IntelliSkin® also features an integrated USB Type-C connector that allows for device charging for when there is no GDS® Dock™ available. This sleeve features military-grade drop protection and includes a dedicated slot for the S Pen. The IntelliSkin® unlocks the GDS® Ecosystem™, with a wide variety of GDS® Docks™, input devices, and ergonomic accessories available to customize your solution. Always Protected. Always Connected.®

SPECIFICATIONS**HARDWARE INCLUDED**
