# LinkIT SlimPatch U/FTP Cat6A Grey 1m

## AWG 28/7, LSZH, 4.8mm

LinkIt Patch Cat.6a cables stand out with their impressive 50-micron gold plating, which provides outstanding corrosion protection and optimal signal transmission. Another important feature is support for the PoE++ (Power over Ethernet++) standard, which enables robust power delivery over network cables. This makes the device ideal for power-hungry applications such as cameras, access points and other devices that require additional power.

The modular plug is equipped with a tanglefree lock that prevents annoying cable tangles and ensures a hassle-free connection experience. The cable is supplied with a high-quality clear plug, which provides extra strength and protection to the cable ends and ensures durability and reliability, even in demanding environments.

The cable's performance meets the requirements for Cat.6a (ANSI / TIA-568-C.2 and ISO 11801).

## Specifications
