2big Quadra USB 3.0

DESKTOP DRIVE
Data Sheet

Universal. Flexible. Reliable.

- USB 3.0 speed: Up to 210MB/s[1]
- Quad interface for PC/Mac compatibility
- RAID and hot-swap for speed or security
- Aluminum enclosure and quiet operation

design by neil poulton

Product Overview

LaCie designed the 2big Quadra USB 3.0 desktop drive from the ground up. It features USB 3.0 with UAS compatibility for optimized speeds up to 210MB/s. It also has a new cooling system that is more efficient and 50% quieter than previous generations. The LaCie® 2big Quadra is completely reliable and perfect for intensive content creation, secure backup, or massive desktop storage.

Use Cases

- Backup: Benefit from USB 3.0 with UAS performance for faster backups, RAID 1 with hot-swappable drives for no data loss or downtime, and dual cooling for long-term availability of backed up data.
- Content Creation: Fast access with USB 3.0 speeds, FireWire 800 compatibility, RAID 0, and near-silent operation let professionals play back hi-def content for smooth video editing and photo library browsing.
- Desktop Storage: Massive capacity, USB 3.0 speeds, reliability, and quad-interface compatibility make the LaCie 2big Quadra a perfect choice for desktop storage.

1 Maximum interface transfer rate = theoretical bus bandwidth, whereas burst transfer rate = maximum drive speed. Tests conducted in RAID 0 with 3TB hard disks. Speeds depend on the RAID mode selected, and average transfer rates vary from one computer to another and from one drive to another.

2big Quadra USB 3.0

System Requirements

- Computer with a USB 3.0, FireWire 800, or USB 2.0 port
- Latest version of Mac OS® X 10.12 and later / Latest version of Windows 8 and later (Windows 10 or later required for Thunderbolt™ 3)
- Minimum free disk space: 600MB recommended

What's Included

- LaCie® 2big Quadra USB 3.0
- External power supply
- USB 3.0 (5Gb/s) cable
- FireWire 800 (800Mb/s) cable
- eSATA (3Gb/s) cable
- Quick Install Guide
