DJI COPILOT

BOSS SERIES

Data Sheet

Laptop Free. Carefree.

Photographers, videographers, drone pilots—you've got enough equipment to lug around. DJI Copilot is here to ease the load and usher you into the world of BOSS—that's Backup On-Set Solutions. With your DJI Copilot BOSS drive, you'll spend more time shooting and adventuring, and less time stuck behind a computer. The DJI Copilot takes in-field backup into the world of computer-free convenience with direct ingestion, mobile file management, and mobile device charging capability.

- No laptop needed
- Copy files directly from drones, memory cards, action cams, DSLR cameras, phones, USB hard drives, USB flash drives, and more.
- Monitor or check file transfer status, available capacity, and battery power using the integrated status screen.
- Review your footage on your mobile phone or tablet—just attach the cable and view/playback with the Copilot BOSS app.
- Manage and organize files too: rename, file, and delete with the Copilot BOSS app.
- Use as a backup battery pack for USB chargeable devices.
- Drop resistant, splash resistant, dust resistant
- 2000GB (2TB) stores over 60 hours of 4K video.[1]
- 3-year Rescue Data Recovery Services plan
- Publish stunning videos and photos with 1-month membership to Adobe® Creative Cloud All Apps plan.[2] Explore the entire collection of CC desktop and mobile apps.

design by neil poulton

1 Based on 1 hour of 4K 30fps compressed footage creates 30GB of data.
2 1-month membership to Adobe Creative Cloud All Apps plan is redeemable during product registration. Internet connection and Adobe ID required. Available only to users 13 and older. Not available in all countries. See www.adobe.com/legal.html for applicable terms and privacy policy.

Rescue DATA RECOVERY SERVICES
Includes 3-year services

DJI COPILOT

BOSS SERIES
