ICY BOX **IB-AC512**
VGA + Audio to HDMI® Adapter

Make new from your old

If the screen is new and has an HDMI® interface, but your PC is old and can only provide a VGA connector and USB 2.0, what is left to do?

The cool team

The IB-AC512 is equipped with a VGA adapter, which is not able to transmit sound. For this, the USB 2.0 connector is available.

The other side

On the other side of this adapter, an HDMI® interface is available. With this standard, both audio and video can be transmitted. In this way, the old devices can communicate with the new ones.

Logistical data

Packing unit:	50 pcs./carton	**Dimension/Carton:**	400x400x235 mm
Total weight/Carton:	9.1 kg/carton	**Dimension (color box):**	200x102x27 mm
Gross weight:	0,162 kg	**Dimension of article:**	330x35x22 mm
Net weight/article:	0,086 kg	**Country of origin:**	China
