

COMPACT BACKLIT BLUETOOTH KEYBOARD

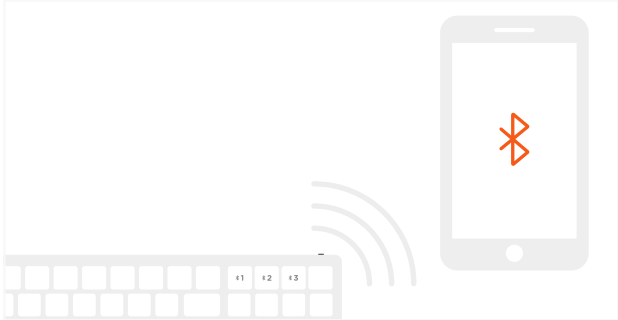

- 1** Turn on power switch on the top side of the Keyboard. Make sure the slider is green.

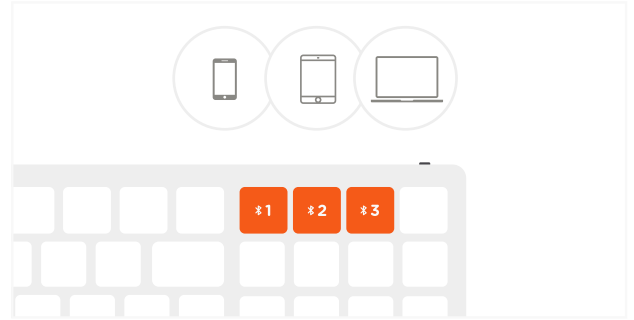

- 2** Press and hold one of Bluetooth keys for ~3 seconds to assign a device to it. Blue LED light should start blinking.

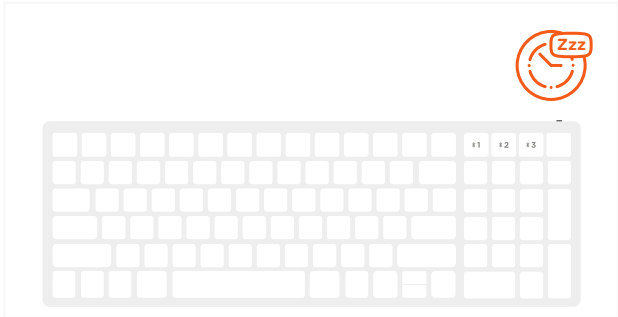

- 3** On the host device, look for “Compact Keyboard” and connect to pair. The blue LED light will stop blinking.

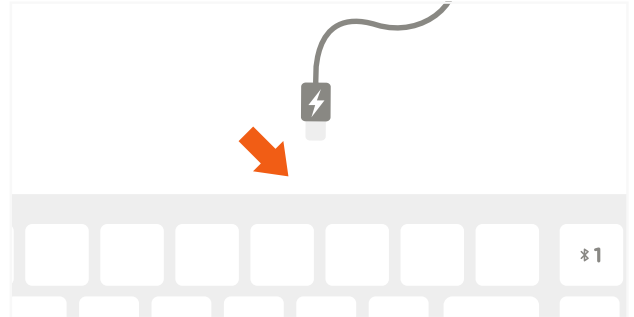

- 4** Repeat process to add up to 3 Bluetooth devices. Toggle between connected devices by pressing Bluetooth 1, 2, or 3 button.

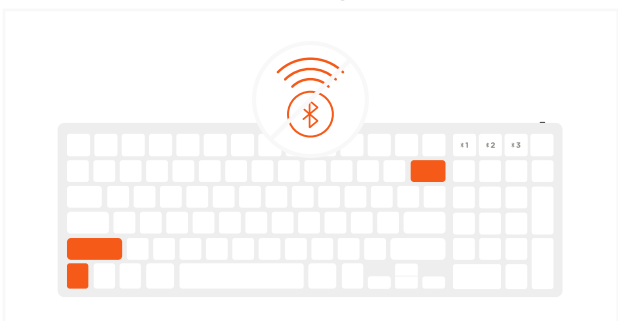

- 5** After 30 minutes of inactivity, the keyboard will go into sleep mode. Press any key to wake up.

- 6** Charge the keyboard via the powered USB port using either of the included USB-C or USB-A cables. When battery is low, the power indicator will flash green.

- !** To remove all saved Bluetooth devices, press and hold “Fn + Shift (left) + Delete”. All three indicator LEDs will light up once.

- !** Use additional keyboard shortcuts:

Task manager/sleep/wake: Control+Option+Delete

Forward delete: Control+D

Page top/bottom: Alt Opt + Home
Alt Opt + End

Function Lock Fn+Esc
