Hewlett Packard Enterprise

HPE 1.6TB NVME GEN3 HIGH PERFORMANCE MIXED USE SFF BC U.2 P4610 SSD (P40549-B21)

Server Solid State Drives

WHAT'S NEW

- HPE 1.6 TB, 3.2 TB, 6.4 TB NVMe High Performance Mixed Use SFF (2.5-inch), U.2, P5620 SSDs
- HPE 1.6 TB, 3.2 TB, 6.4 TB NVMe High Performance Mixed Use SFF (2.5-inch), U.3, PM1735a SSDs

OVERVIEW

Do you need to accelerate the performance of your mixed use applications?

HPE NVMe High Performance Mixed Use (MU) SSDs are best suited for high I/O applications that require a balanced performance between reads and writes to deliver high performance and endurance for data intensive applications. NVMe High Performance MU SSDs communicate directly to

applications via the PCIe bus to boost I/O bandwidth and reduce latency.

HPE NVMe High Performance MU SSDs deliver high performance, lower latency data transfers from storage significantly faster than SAS or SATA SSDs. Utilizes the high bandwidth of PCIe Gen3 and PCIe Gen4 in select servers for mixed use workloads such as Big Data analytics, HPC and virtualization.

HPE SSDs are backed by up to 3.35 million hours of testing and qualification [1] ensuring reliable, high performing drives. HPE Digitally Signed Firmware prevents unauthorized access to data by providing the assurance that drive firmware comes from a trusted source.

FEATURES

High Performance, Exceptional Reliability, and Efficiency for Faster Business Results

HPE NVMe High Performance Mixed Use (MU) Solid State Drives are ideal for Big Data analytics, cloud computing, high performance compute, business intelligence, database applications and virtualization.

Achieve higher IOPS and lower latency to enhance the performance of your data center.

Maintain data accuracy with full data-path error detection.

Choose from a broad portfolio of enhanced solutions in a wide variety of capacities.

HPE NVMe High Performance Solid State Drives

HPE Continues to Enhance its SSD Portfolio by Offering NVMe U.3 PCIe Gen4 SSDs

HPE NVMe PCIe Gen4 U.3 SSDs deliver higher performance for server-storage solutions to better meet the challenges within high performance workloads.

HPE NVMe U.3 PCIe Gen4 SSDs are 100% backwards compatible with NVMe U.2 SSD backplanes on HPE Gen10 servers.

Self-encrypting FIPS

Supports Self-Encrypting TCG Opal FIPS-140-2.

Protect data if the storage device is physically stolen or subject to inappropriate chain of custody, returned for warranty, repair, expired lease, disposal, or repurposed for other storage duties.

Technical specifications

HPE 1.6TB NVMe Gen3 High Performance Mixed Use SFF BC U.2 P4610 SSD

Product Number	P40549-B21
Lifetime Writes	12,250
Endurance DWPD (Drive Writes Per Day)	4.1
Read IOPS	Random Read IOPS (4KiB, Q=16)=165,000 Max Random Read IOPS (4KiB)=660,000@Q256
Write IOPS	Random Write IOPS (4KiB, Q=16) 200,000 Max Random Write IOPS (4KiB) 205,000@Q32
Power (Watts)	11.83
Plug Type	Hot pluggable
Height	15mm
Product Dimensions (metric)	21.92 x 22.86 x 14.61 cm
Weight	0.5 kg
Warranty	HPE Solid State Drives and Add-In Cards have a standard 3/0/0 warranty Customer Self Repair (CSR) subject to maximum usage limitations. Maximum usage limit is the maximum amount of data that can be written to the drive. Drives that have reached this limit will not be eligible for warranty coverage.

HPE POINTNEXT SERVICES

HPE Pointnext Services brings together technology and expertise to help you drive your business forward and prepare for whatever is next.

Operational Services from HPE Pointnext Services

HPE Pointnext Tech Care provides fast access to product-specific experts, an AI-driven digital experience, and general technical guidance to help enable constant innovation. We have reimagined IT support from the ground up to deliver faster answers and greater value. By continuously searching for better ways to do things—as opposed to just fixing things that break—HPE Pointnext Tech Care helps you focus on achieving your business goals.

HPE Pointnext Complete Care is a modular, edge-to-cloud IT environment service that provides a holistic approach to optimizing your entire IT environment, and achieving agreed upon IT outcomes and business goals through a personalized and customer-centric experience. All delivered by an assigned team of HPE Pointnext Services experts.

HPE Integration and Performance Services help you customize your experience at any stage of your product lifecycle with a menu of services based on individual needs, workloads, and technologies.

- Advise, design, and transform
- Deploy
- Integrate and migrate
- Operate and improve
- Financial Services
- GreenLake Management Services
- Retire and sanitize
- IT Training and personal development

Other related services

HPE Education Services delivers a comprehensive range of services to support your people as they expand their skills required for a digital transformation. Consult your HPE Sales Representative or Authorized Channel Partner of choice for any additional questions and support options.

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

HPE GREENLAKE

HPE GreenLake is HPE's market-leading IT as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model. HPE GreenLake delivers public cloud services and infrastructure for workloads on premises, fully managed in a pay per use model.

If you are looking for more services, like **IT financing solutions**, please explore them here.

[1] HPE Internal lab testing. Up to 3.35 million hour test quant is derived from a combination of drive qualification test plans, specifically HDDQ spec-supplier responsibility to perform, HDDQ spec-HPE responsibility to perform, RDT-Reliability Demonstration Test (RDT) spec, CSI integration test spec and pilot test requirements.
